Summary

Full-Stack Developer with expertise in both front-end and back-end technologies. Focused on delivering high-performance applications and improving software development processes using modern tools.

Education

- University of Southampton, M.Sc. in Computer Science (2016-2018)
- University of Surrey, B.Sc. in Web Development (2012-2016)

Skills

- React, Angular, Vue.js
- Node.js, Express.js, Django
- Docker, Kubernetes, CI/CD
- PostgreSQL, MySQL

Project Experience

- Task Management App: Created a task management application using React and Node.js. Implemented user authentication with JWT and integrated it with PostgreSQL.
- Job Board: Developed a job board application with advanced search features using React, Node.js, and AWS EC2.

Work Experience

- Full-Stack Developer, CodeCraft Ltd (2018-Present): Worked on various enterprise projects, providing end-to-end solutions from front-end development to cloud integration.
- Junior Web Developer, DevWorks (2017-2018): Assisted in building and maintaining web applications and websites for clients.
