Summary

Passionate Machine Learning enthusiast with a focus on deep learning and reinforcement learning. Skilled in Python, Keras, and Scikit-learn.

Education

- Indian Institute of Technology, Delhi, M.Tech in Computer Science (2017-2019)
- VIT University, B.Tech in Information Technology (2013-2017)

Skills

- Python, Keras, Scikit-learn
- Reinforcement Learning, GANs
- Data Visualization (Matplotlib, Seaborn)

Project Experience

- **Stock Price Prediction:** Built a time-series forecasting model using LSTMs.
- **Autonomous Navigation System:** Designed RL algorithms for robotic pathfinding.

Work Experience

- **Data Scientist, Flipkart (2019-2022):** Improved recommendation systems using ML techniques.
- **ML Research Intern, IBM (2018):** Worked on anomaly detection in large datasets.
